### BAD FIRE AT PHILADELPHIA.

Million Dollars' Worth of Property  
Destroyed.

Philadelphia, May 25.—A fire that is estimated to have caused a loss of upwards of \$1,000,000, occurred in the building of the Front Street Warehousing company. The building was three stories high on Front and five in the rear and had two sub-basements. Merchandise of a general character was stored in the place.

The fire started in the basement and was not discovered until the center of the first floor was in flames. The character of the goods in the building made it an easy prey to the flames, and the whole structure was soon ablaze. Everything in the building was destroyed by either fire or water. The contents of the building were owned by many firms and individuals, and it is not known what amount of insurance was carried on the goods. The building was owned by Jacob Wiseman, and was valued at \$65,000.

Three firemen were injured, two of them sustaining fractured shoulder blades.

### FROM BROOKLYN BRIDGE.

Unknown Man Plunges to His Death  
While Smoking a Cigar.

New York, May 25.—An unknown man sitting in an open car crossing Brooklyn bridge suddenly alighted when the car was in the middle of the center span and, running to the side of the bridge, jumped into the river. He threw his hat into the face of a fireman who tried to seize him as he stood poised on the edge of the trestlework, and then dived headfirst, holding a lighted cigar between his teeth. His body rose to the surface immediately after the plunge and was carried away by the current.

## AUTOS GO TOO FAST

SEVERAL FATALITIES MAR THE  
FIRST STAGE OF THE PARIS-  
MADRID RACE.

CONTEST IS DISCONTINUED

MACHINES ATTAIN OVER A MILE  
A MINUTE ON ROADS OUT-  
SIDE CITIES.

Paris, May 25.—The first stage in the Paris-Madrid automobile race from Versailles to Bordeaux, 343 miles, finished at noon Sunday, when Louis Renault dashed at a furious pace into Bordeaux, having made a record run of eight hours and twenty-seven minutes. An hour later M. Gabriel arrived with a still better record of eight hours and seven minutes.

It is estimated from the times made, that these automobiles covered sixty-two miles an hour on the road outside the cities. These victories, however, were clouded by a series of accidents, having in one case at least, a fatal result. At least two cars were wrecked and Marcel Renault, the winner of the Paris-Vienna race last year, Lorraine Barrows, a very well known automobilist, and Renault's chauffeur, were seriously, and it is believed, fatally, injured, while Barrows' chauffeur was killed.

The most terrible accident occurred near Bonneval, nineteen miles from Chartres, where machine No. 243, driven by M. Porter, was overturned at a railroad crossing and took fire. The chauffeur was caught underneath the automobile and burned to death, while two soldiers and a child were killed.

A chauffeur was badly injured by an accident to his motor car near Angoulême. A woman crossing the road in the neighborhood of Abilis was run over by one of the competing cars and killed.

### Two Are Still Alive.

Mr. Stead and his chauffeur, who were first reported to have been killed, are still alive. It seems that their automobile collided with another car with which Mr. Stead had been racing for several kilometers, wheel to wheel, and was completely overturned in a ditch near Montoguyon. Mr. Stead was caught under the machine, while his chauffeur was hurled a distance of thirty feet and had his head and body badly cut. Mr. Stead was conscious when he was picked up, but complained of suffering great pain. He was conveyed to the nearest farm.

This number of accidents has not caused any great surprise here in view of the number of contestants in the race and the great speed and power of their machines.

It is stated that Louis Renault's automobile attained at Bourdiniere, between Chartres and Bonneval, a maximum speed of eighty-eight and three-fourths miles per hour.

In view of the number of accidents in the first stage of the Paris-Madrid automobile race from Versailles to Bordeaux, Premier Combes has forbidden the continuance of the contest on French territory. The second stage of the race, which was to have been continued on Tuesday, included a run over French territory from Bordeaux to the Spanish frontier. Premier Combes' action will probably lead to the race being abandoned.

### Forbidden on Spanish Territory.

It is reported that the Spanish government has also forbidden the continuance of the race on Spanish territory. W. K. Vanderbilt, Jr., Henri Fournier and Baron de Forest withdrew from the race together before reaching Chartres. All of them suffered breakdowns and having lost three hours, they decided that it was useless to continue. Mr. Vanderbilt and Baron de Forest returned to the Hotel Ritz at 11 o'clock in the morning. They laughed and made light of their withdrawal. Foxhall Keene, Tod Sloan, and W. J. Darnat, the American artist, did not appear at the starting line when their turn was reached and consequently did not take part in the race. C. Gray Dinsmore is thus the only American left in the race.

Versailles passed a night of excitement. It is estimated that 100,000 persons crowded into the little town to witness the start of the race. Soldiers with fixed bayonets lined the track for some distance from Versailles. A bomb was exploded at 2:35 a. m. as a signal to get ready, and immediately Charles Jarrot's car drew into place. Another bomb was fired at a quarter to 4 o'clock for the start and then the enormous machine shot forward amid the shouts of the thousands of spectators. The other cars followed in quick succession.

### Only Woman in the Race.

Mme. De Gast, the sole female competitor in last year's Paris-Berlin race, was again the only woman to participate in the present contest. Her machine was decked with flowers and her departure was the signal for a great ovation. She made a splendid run, passing five of her competitors before reaching Chartres. The crowd around Mr. Vanderbilt's machine prevented him from reaching the starting line in time and he was further delayed by a controversy with the judges, finally starting two minutes late. The last departure was at 6:45 Sunday morning.

The reports along the route soon

showed that Louis Renault was making a great race and before Chartres was reached he had overtaken and passed Charles Jarrot and M. Reno de Knyff and gained a lead which he never lost afterward. Dispatches from Vendome, Tours and Poitiers and of his passing through ahead, and Bordeaux sent the announcement of his arrival first at 12:14:25. He had beaten Henri Fournier's record of 8 hours 44 minutes. Charles Jarrot finished second at 12:30, having covered the course in 8 hours 44 minutes. M. Gabriel arrived third at 1:08, his time being 8 hours 7 minutes. The other contestants who made fast time were J. Salleron, 8 hours 40 minutes; Baron de Crawher, 8 hours 53 minutes; J. B. Warden, 8 hours 50 minutes; and M. Voigt, 8 hours 55 minutes.

The result of the first stage of the race appears to be a draw between the merits of the light and heavy vehicles. Louis Renault drove a light machine, weighing 650 pounds and of 30 horse power, while Gabriel drove a heavy machine of 70 horse power, weighing 1,000 pounds.

### DASHES INTO A CROWD.

Motorcycle Kills Two Spectators and Injures Many Others.

Bristol, Eng., May 25.—A serious motorcycle accident occurred here. The motor swerved into a crowd of spectators, two of whom were killed and many others seriously injured.

### MAX O'RELL IS DEAD.

Never Fully Recovered From Effects of an Operation.

Paris, May 25.—Paul Blomet (Max O'Rell) died last night. He had been ailing for several months and never recovered entirely from the effect of an operation performed some time ago in New York.

### TROOPS ON THE SCENE.

Will Preserve Order During Trial of Curtis Jett.

Jackson, Ky., May 25.—A battalion of troops numbering 120 men has arrived here to preserve order in the town and about the courthouse during the investigation of the assassination of James B. Marcum, the last victim of the Hargis-Cockrill feud.

Curtis Jett, who is under arrest at Winchester, charged with the crime, will not ask for a change of venue if indicted and returned to Jackson. Presiding Attorney Byrd stated that it is possible that a motion might be made by those interested in the prosecution.

Doubt is expressed by many as to the probability of witnesses mustering up courage to tell the grand jury all they know. The common belief is that fear of assassination after the troops are withdrawn may seal the lips of those who may know about the killing of Marcum.

## ONLY A FEW ESCAPE

TURKS BURN THE VILLAGE OF  
BANITZI AND MURDER THE  
INHABITANTS.

London, May 25.—The Sofia correspondent of the Morning Leader telegraphs that the Macedonian committee reports that the Turks have burned the village of Banitzli, near Seres. Only 48 of the 500 inhabitants escaped, and many women and girls were outraged and murdered and their bodies cast into the water.

### MACEDONIANS DEFEATED.

Turks Kill Nineteen Men and Burn and Pillage Houses.

Salonica, May 25.—The revolution of a band of nineteen men headed by the Macedonian leader, Svetkoff, against which the Turkish troops were fighting all day Thursday near the Bulgarian village of Mogil, six miles north of Monastir, was finally surrounded and destroyed. The fight was a prolonged one and Svetkoff, twelve of his men and six villagers were killed. The Turkish loss was trifling. After the fighting the Bashli Bazonks pillaged and burned eighteen houses in Mogil.

Terror prevails in Monastir and the consuls propose to ask for foreign guards. Another sixteen battalions of Turkish troops are coming from Asia Minor to complete the occupation of the villages.

### CLOUDBURST IN IOWA.

Causes Large Flood in the Valley of the Floyd River.

Sioux City, Ia., May 25.—A cloudburst above Merrill, added to the recent continued rains, has caused a large flood in the valley of the Floyd river, which is a mile wide at Hinton, stretching from him to hill. Great damage to farm property has resulted, much stock being drowned.

Sioux City was warned by telephone, and people in the lower part of the city moved out of their homes, fearing a repetition of the disastrous flood of 1893. The river has risen rapidly here, but is not yet out of its banks.

### He Found the Leak.

San Francisco, May 25.—Howard J. Lawler, a printer, his aged mother, his sister-in-law and the latter's two children, were severely burned by an explosion of gas in Lawler's home here. Lawler was trying to locate a leak in a gas range with a lighted match.

### Refuse to Arbitrate.

Chicago, May 25.—Refusal of the laundry drivers to submit their wage scale to arbitration prevented a settlement of the laundry strike Sunday.

## STRUCK BY TORNADO

THREE PERSONS KILLED AND A  
NUMBER INJURED AT FOSS,  
OKLAHOMA.

CLOUDBURST DAMAGES ENID

GREAT WALL OF WATER SWEEPS  
AWAY HOMES AND CAUSES  
SUFFERING.

Guthrie, Okla., May 25.—A tornado struck Foss, a town of 200 inhabitants, on the Choctaw, Oklahoma and Gulf railway in Western Oklahoma, Sunday morning, completely destroying thirteen residences and wrecking many outhouses. Three persons were killed and a number injured, one, R. P. Hall, seriously. The dead are F. M. Slagel, wife and daughter.

The cloudburst reported at Yukon, eighteen miles west of Oklahoma, completely inundated the Canadian valley, causing great damage to crops and stock, but no lives are reported lost.

A severe rain and wind storm passed over Chickasha and through the Wihshita valley, causing more or less destruction. The damage was confined mostly to the Rock Island and Frisco railways. Two Rock Island bridges over the Canadian and Wihshita rivers were washed out, carrying over 800 feet of track with them and effectually blocking traffic. The northbound Rock Island passenger train ran into a washout five miles north of Chickasha and left the track. Several passengers were slightly injured, but there was no loss of life.

Oklahoma City was visited Saturday night and Sunday morning by the heaviest rainfall ever known in that region and the damage estimated at \$100,000 was done. Many feared a tornado and spent the night in cellars and caves.

### DAMAGE VERY GREAT.

Cloudburst Wrecks Many Homes at Enid, Okla.

Enid, Okla., May 25.—Hundreds of persons were rendered homeless and property damage estimated at \$300,000 was destroyed in the Enid bottoms alone by a cloudburst which struck west of Enid at midnight. The aggregate will doubtless be raised much higher by losses sustained between Enid and the seat of the storm. At 12 o'clock a bank of water 3 feet high and 200 feet wide swept down through the bottoms, carrying houses and everything before it. It came upon Enid without warning while most of the citizens were asleep. Within a few minutes 100 houses were partly or completely submerged. Recorders went to work immediately and all night labored industriously saving persons from perilous positions and aiding those driven from their homes. It was found that several hundred were homeless.

Reports of losses in the country west of Enid are meagre, but it is believed that heavy damage was done.

### LOCOMOTIVE EXPLODES.

One Trainman Killed and Four Others Badly Injured.

Erie, Pa., May 25.—While passing May's siding on the hill about seven miles west of Kane, the boiler on one of the locomotives pushing a Philadelphia and Erie freight train exploded, killing one man and injuring four others, three perhaps fatally.

The disaster was an unusual one inasmuch as the train was running at the time and also because the crown sheet of the exploded boiler was blown clear through the caboose splitting it in two and completely wrecking it, so that it was set on fire and burned up as the quickest way to clear the tracks. The injured, except the engineer and fireman, were in the caboose.

John Craine, brakeman, was killed. Charles Owens, conductor, and Henry Gardner, flagman, will die; W. J. Swartzfager, engineer, may die, and Peter Crossen, fireman, is badly injured.

### MOB REPULSED.

Officers Frustrate Attempt to Lynch Two Idaho Negroes.

Nampa, Ida., May 25.—A mob attacked the city jail shortly before midnight in an attempt to lynch two negroes, James T. Quarles and Henry Williams, who were involved in a shooting affray at a ball game Sunday afternoon which resulted in the probable fatal wounding of Policeman Grogan. The mob got inside the jail but were forced to retire after a lively scrimmage with a dozen special officers.

### Fatally Stabs His Stepson.

Marion, Ind., May 25.—L. D. Baldwin, a prominent attorney, fatally stabbed his stepson, Bert Ritter, at their home and severely stabbed his wife and stepdaughter, Mrs. John Budd during a quarrel.

### Murder and Suicide.

Newcastle, Pa., May 25.—Charles Grannis of this city shot Mrs. Della May Ryhal at Cascade Park, near here, Sunday evening and then shot himself. Both are at a hospital here, and it is said neither can live.

## BRIEFLY TOLD.

Not Necessary to Leave Brainerd for Proof—You Have it Here.

Endorsement by residents of Brainerd.

Positive proof from Brainerd people.

Briefly told for the public good. Such is the following testimony: Mr. R. D. Ransom, of Third Ave., East Brainerd, fireman for the Brainerd Lumber Co., says: "For as long as twelve or fourteen years I was a sufferer from kidney ailment. My back hurt me awfully; I could stoop but when I attempted to rise, severe pain caught me in the loins. Often in bed I could not change my position and when morning came I had to be helped out of bed. The kidney secretions were of a very unhealthy color and were otherwise irregular. I commenced using Doan's Kidney Pills and one box did me so much good that I took another. The treatment cured me."

Sold for 50 cents a box, at H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

## An Appropriate Name.

Edna—I don't know whether to call my Boston bull terrier Pompey, Scipio or Caesar.

Arthur (who has had a sad experience with the terrier)—I think Agrippa would be a very suitable name for him.

## AMERICA AND RUSSIA.

Relations With United States Discussed by Oscar Straus.

## TELLS HOW TO REGARD THE BEAR

"Long Standing Friendship," Says Former Minister to Turkey, "Is Superfluous"—Behind All, He Adds, Is a Feeling Against Great Britain. Declares Modern Russia Has Nothing in Common With Us.

Oscar S. Straus, who was twice minister to Turkey, was asked the other day to give his views regarding the relations between the United States and Russia. He said:

"No one can read without a shudder of horror the reports of the fiendish outrages at Kishineff on April 19, 20 and 21 upon the unoffending Jewish population of that city by a mob which was officially incited and officially protected."

"This barbaric holocaust which has taken place in a populous city of 140,000 inhabitants appeals for redress not to the Jews throughout the world, but to the civilized world; not to those professing the religion of the slaughtered, but to those professing the religion of the slaughterers. It is a crime against civilization and Christianity as well."

"Only a few days ago we read with some elation the humane ukase of the czar, which indicated that a new era was about to dawn upon the Russian empire. Since then how has that humane and pious rescript been interpreted? New invasions have been made upon the liberties of the Finns, new restrictions have been placed upon all religions not of the Orthodox church, movements toward appropriating Manchuria, though temporarily denied, yet sure to be made effectual, and lastly the blood curdling tragedy at Kishineff."

"Whenever Russian horrors reach American ears we constantly hear about the long standing friendship between Russia and the United States. If we look beneath the surface—which is so necessary when Russia is concerned—we will find that underlying courtesies to our naval officers and profuse diplomatic professions of friendship will be found a purpose to accentuate hostility toward England. Let us for a moment see on what basis that friendship rests and in what manner it has been manifested."

"Under Catherine II. a scheme was formed, in 1779, when we were in the most trying period of our Revolutionary war, for giving George III. effective assistance against us on condition that the English aid Russia in renewed attacks upon the Turks. A part of this programme was that the island of Minorca was to be ceded by England to Russia as a station for the Russian fleet in the Mediterranean and as a rendezvous for the insurgent Greeks. This project was drawn up by Catherine's chief adviser, the licentious Count Potemkin, for presentation to the British ambassador at St. Petersburg, but through the adroitness of Count Panin, Catherine's minister of foreign affairs, who favored the French interest against the English, this scheme fell through, thereby causing the empress to adopt the anti-British policy—armed neutrality. This fact is referred to by Sir Edward Creasy in his history of the Ottoman Turks, as well as by Eaton, who was an intimate friend of Potemkin."

"A cause for gratitude on the part of the United States to Russia is to be found arising out of the following circumstances:

"It will be remembered that Russia was the dominant power in the so called 'holy alliance,' whose purpose was to dominate the American continent and especially to crush the spirit of liberty in South American republics. By reason of this friendly attitude of Russia and her allies toward the republics of South America and the United States we are indebted for our farseeing continental policy, known as the 'Monroe doctrine.'

"But we hear much of Russia's friendly attitude toward us during the civil war and of her sending several war ships to the Atlantic and to the Pacific with 'sealed instructions.' Much has been made of this. That it was a benefit to us is quite true. But has any one disclosed what those 'sealed instructions' were, and has any one a right to suppose that they were for any other purpose than to offset England, or, in other words, that her relations toward us, even during the civil war, were anything more than moves made by her upon the chess-board of European diplomacy purely and only as counter moves to England?"

"The Russia of today has nothing in common with the United States, and she would, if she could, caviare our Declaration of Independence out of existence and wipe liberty from the face of the globe. The graphic forecast of her policy by England's greatest diplomatist, Stratford Canning, is verified in our day: 'Rome of old extended its sway by conquest, but wherever its eagles flew the arts of civilization followed. The Russian bird of prey has no such commission. It turns indeed toward the sun, but the shadow of its wings is blighting and moral desolation closes upon its flight.' 'Let not a false or misplaced gratitude check the humane sympathies of America for the despoiled Finns, the persecuted Christian Slundists and the oppressed and massacred Jews.'"

## REQUIEM SUNG IN HONOR OF THE DEAD

Impressive Services Over the Remains of the Late Mrs. T. M. Reilly This Morning.

### AN UNUSUALLY LARGE FUNERAL

The Floral Contributions from Relatives and Friends Were Many and Beautiful.

At 9 o'clock this morning the funeral services over the remains of the late Mrs. Sarah Reilly, wife of T. M. Reilly, were held at St. Francis Catholic church in this city, and seldom have similar ceremonies been more impressive. The church was packed and the funeral cortege from the church to Evergreen cemetery, where the remains were laid away to rest, was the longest ever seen in this city.

At the church solemn requiem mass was sung, Rev. Father D. W. Lynch being the celebrant. This was followed by a short but very eloquent eulogy on the life of the departed. Rev. Father Lynch spoke in endearing terms of the one in whose honor all had gathered to pay homage and their last respects.

The evidence of the late Mrs. Reilly's popularity could be exemplified in no more impressive manner than by the manner people turned out this morning at the church, and the interest taken in the ceremonies. Those in attendance from out the city were Mr. and Mrs. T. Loftus, Staples; W. C. Reilly, Missoula, Mont.; Mr. and Mrs. T. Manion, Rosemont, Minn.; Mr. and Mrs. Ed. Reilly, Hokah, Minn.; Mrs. Sebina Haggerty and son, William, Grand Meadow, Minn.; Mr. and Mrs. P. O'Brien and daughter, Minneapolis; J. T. Hughes, Mrs. Sarah Whelan, Mr. and Mrs. J. H. The following were the pallbearers: J. F. McGinnis, J. T. Hughes, James and Michael Cullen, Thos Willis and Andrew Wallace.

Interment took place in Evergreen cemetery.

Last night the members of Pap Thomas Post, G. A. R., attended the First Baptist church in a body, the event being the annual memorial services preceding Decoration Day. Rev. S. W. Hover delivered the sermon and it was considered a very brilliant patriotic effort.

There was also a day of patriotism at the First Congregational church. Rev. Richard Brown delivered two very eloquent and powerful sermons, one in the morning and the evening.

### AN EXCELLENT RECITAL.

Pupils of Mrs. J. C. Atherton Heard in a Parlor Recital on Saturday Evening in this City.

A particularly delightful evening in song was spent at the home of Mr. and Mrs. G. D. LaBar on Saturday evening when a recital was given by the vocal pupils of Mrs. J. C. Atherton, most of these being young people well and favorably known in the city. The program was replete with good things and every number was enthusiastically applauded. The young people give signs of having possession of good voices and are beginning to show results of good training. Mrs. Atherton is to be congratulated.

After the musical program was rendered a social hour was spent and the forty or fifty guests present were served with refreshments. It was a very delightful evening and those present will look forward to another of Mrs. Atherton's recitals with pleasure.

Those who took part in the program were: Messrs. Ed Murphy, George Bouck, Frank McCarthy and George Laing and the Misses Grace Low, Vera Nevers, Hilda Growe, Carrie Mahlum, Mrs. Gody and Mrs. G. D. LaBar.

### Don't Like the Herald.

A few days ago the Duluth Herald published, under the head of "Hotel Gossip," a purported interview with Hon. C. C. McCarthy of this place. When asked regarding the matter Mr. McCarthy was very indignant and gave his opinion of the Herald in no uncertain language. When asked about that part of the article which referred to Judge Spooner, Mr. McCarthy said: "All I have to say is that the whole pretended interview is a pure fabrication on the part of the Evening Herald and its reporter. I had no interview with the Herald reporter on May 6th nor at any other time and I never neither directly or indirectly or in any way stated to that paper or its reporter anything in that pretended interview. I regard that writup as about the meanest and most contemptible treatment I ever received from any newspaper. Not only did that sneaking, cowardly and lying reporter manufacture what he did about me but he went out of his way to say something mean about the new Judge of this district, Hon. M. A. Spooner. I do not suppose that Mr. Spooner ever had anything to do with that paper or any of its reporters or anyone else connected with it, and why they should desire to do him an injury is what no one else knows unless it is the paper itself.

I attended the last term of court at Walker, which was held by Mr. Spooner, and I want to say that he gave the very best of satisfaction, and in my judgment he is now one of the best judges in the state. Gov. Van Sant made a good appointment when he appointed him, and I for one will do all I can to secure his nomination and election at the next general election. So far as I have heard I believe the bar of this district is well pleased with Judge Spooner and I believe he will have the unanimous endorsement of the bar for nomination and election."

## THE CASE AGAINST LARS LEE ON TRIAL

Jury in the Case of the State Against W. F. Richardson Retires this afternoon.

### T. C. BLEWITT GETS VERDICT

Lars Lee is Charged with Threatening to Shoot His Wife with a Revolver.

This afternoon the case of the state against Lars Lee, charged with assault in the second degree, was taken up and the jury secured. Lee is charged with threatening to finish his wife's life with a revolver early this spring. He went home with a pretty good jag on and after drinking from the contents of a bottle nearly all night, got his gun and began to play horse with it.

In the district court on Saturday afternoon the case of T. C. Blewitt vs Lenora McMellen went to the jury. This is a suit which the plaintiff brought to recover attorney fees. He appeared as attorney for the defendant in a land contest case and won out, but she refused to settle, it is alleged, according to an agreement previously made. The jury was out but a short time and returned a verdict for the plaintiff fixing the amount at \$262.

The case of the state against William F. Richardson was taken up this morning. He is charged with stealing timber off some land in the northern part of the county. All the evidence was in this morning and immediately after dinner the court gave the charge and the jury retired.

### WILL NOT FORCE SALES.

State Auditor Iverson Announces He will Not Hold Sales of State School Lands Until Fall.

State Auditor S. G. Iverson announces that no school land will be sold until next October. Mr. Iverson believes that the land is a good investment and should not be forced on the people. His plan is to offer it for sale only where actual settlements are contemplated.

The law makes the state auditor ex-officio land commissioner and prohibits him from disposing of more than 100,000 acres a year. The state has about 1,250,000 acres of school land unsold situated mainly in Itasca, Cass, Aitkin, Beltrami, Crow Wing, Mille Lacs, Hubbard and other northern counties.

Last year 100,000 acres were sold at an average price of \$9.78 an acre, \$3.54 above the average price which had obtained for the price which had obtained for the previous forty years.

The permanent school fund resulting from the sales amounts to about \$15,500,000. Mr. Iverson estimates the value of the unsold school lands at \$8,000,000.

## MUSIC AND DRAMA.

### "MAHARA'S MINSTRELS."

Lovers of music will be glad to know that Prof. H. C. Handy is the man who conducts the musical affairs of the Mahara's minstrels, which appears at the Brainerd opera house next Friday May 29. Prof. Handy for the past three years has been the musical director of Booka T. Whashington's Tuskegee college in Alabama, and it was only the inducement of a fat salary that persuaded him to join the Mahara forces. As a violin and cornet virtuoso, Prof. Handy has few superiors and as a band master has been called the colored Sousa so that outside of the laughable antic of the Darkytown senators, those who witness the performance next Friday night will be treated to a class of music seldom rendered by a minstrel organization. Mahara's famous challenge band and orchestra will give a street parade at noon the day of the show.

### "CAPRICE."

"Caprice," a very pretty society play will be put on at the Brainerd opera house on the evening of May 30, by an excellent cast of local artists. The story has a very pretty setting, the thread of interest being the love making of Jack Henderson to Miss Baxter, a demure little country maiden. Young Henderson is fresh from the scenes of his college life and falling in love he pleads his case to the winning little Miss Baxter with a constancy born of man. He wins. Finally there comes a time when he thinks it was a mistake for him, a man in his standing to marry this little lady, on account of their different standing in life, and there is another turn in the affairs but it all comes out right in the end. The leading role of Jack Henderson is assayed by W. S. Cox, and Miss Mina Adams takes the part of Miss Baxter. This piece, put on as it will be, should make a very pleasant evening's entertainment. The proceeds go to Hope Hose Company No. 1, and are to be used for the coming fire tournament.

## RAILROAD GOSSIP

James Williams, of the Northern Pacific, who was injured last December in the yards at Fargo, returned Saturday to that city, having just been released from the sanitarium in Brainerd. He is minus two fingers on his right hand and the arm is yet in a poor condition, so his return to work is still doubtful.

The trouble on the Fargo & Southwestern by high water at the crossing of Ball Creek, just west of Lisbon, will necessitate the building of a bridge. Large crews of men are at work. Traffic has been maintained by a system of transfer, but it took considerable time and the Southwestern branch has been running late.

The work of laying rails on the McKenzie-Linton branch of the Northern Pacific begins today. The work will be done by a track-laying machine and will progress rapidly.

In railroad circles, this morning, it was stated that another change would be made in the N. P. time schedule and that it will go into effect about the first Sunday in June. The most important change is expected to be in the running of the St. Paul local, which now runs to Mandan. That train's run will be extended to Billings.

A full railway postoffice is to be established on trains No. 7 and 8, running between St. Paul and Fargo. This means that more clerks will be employed on the run and some of the boys will be promoted.

## DR. KEMP'S DISCOVERY

Remarkable Plan For Raising  
the Dead to Life.

MAKES HEART BEAT BY MASSAGING

New York Physician Said to Have  
Found Secret of Restoring Sus-  
pended Animation—Brought Life to  
a Dog That Had Been Dead Sixteen  
Minutes.

Raising an interesting question as to  
when life in animals actually becomes  
extinct, Dr. Robert C. Kemp of New  
York has found it possible to restore a  
dog to life after its heart had stopped  
beating for sixteen minutes, says the  
New York Herald. After an examina-  
tion by surgeons the animal was offi-  
cially pronounced dead, yet Dr. Kemp  
by massaging its heart so far brought  
it back to life that it lived twenty-four  
hours and meanwhile was so far re-  
stored to the use of its faculties that  
it ate and drank and performed its  
usual functions.

In eleven out of twenty-three experi-  
ments of this character Dr. Kemp has  
succeeded in "restoring dogs to life,"  
and he is convinced that in the case of  
human beings under similar conditions  
the proportion of restorations would  
be far greater.

In the case of the dogs he ascribes  
their death after an interval of from  
two or three to twenty-four hours not  
to failure of his treatment, for that  
has apparently been successful, but to  
the fact that the dogs could not be  
prevented from tearing away the band-  
ages with which their wounds were  
bound up.

Only one such experiment has been  
tried on a human being, and in that  
case it was not successful, but the fact  
that the girl whose life he tried to re-  
store after her heart had stopped beat-  
ing was suffering from a severe attack  
of blood poisoning may explain the failure.

In the case of the dogs on which Dr.  
Kemp experimented all had been  
placed under the influence of chloro-  
form. By the use of delicate instru-  
ments their heart beats and respiration  
were carefully noted and automati-  
cally charted, and when both respiration  
and heart beats had ceased so far as  
the chart showed the experiment in  
restoration was begun.

Dr. Kemp's method is founded on  
one which has been in use abroad,  
but the surgeons before whom he read  
his paper at a meeting held in the New  
York Academy of Medicine the other  
night were of opinion that he had im-  
proved on the foreign system, which is  
to make an incision large enough for  
the insertion of the entire hand, while  
the incision made by Dr. Kemp is only  
as large as would be made for the re-  
moval of pus. He inserts only two  
fingers, and instead of massaging the  
heart in regular beats he imitates the  
double beat of the heart when it is  
working under normal conditions, as  
shown on his chart, by the use of his  
apparatus. The vital spark remains  
active, he believes, and he merely fans  
it into renewed life by massaging the  
heart.

For more than two years Dr. Kemp  
has been making experiments of this  
character in the physiological laboratory  
of the College of Physicians and  
Surgeons, assisted by Dr. A. W. Gard-  
ner, and surgeons who have been  
aware of the work he has been doing  
have awaited his report with deep in-  
terest. They are of opinion that Dr.  
Kemp has taken a long step forward  
in the methods of resuscitation and  
that while such a course as he has  
demonstrated is possible it would not  
be resorted to except in extreme and  
rare cases. Several who were seen  
recently declared that undoubtedly his  
work could be made to save several  
hundred lives a year.

"Dr. Kemp's conclusions from his ex-  
periments will be listened to with the  
greatest interest and confidence by the  
medical profession," said Dr. George  
F. Shady. "The fact that he was able  
to restore an animal to the use of its  
normal functions so long a time as six-  
teen minutes after the heart had stopped  
beating is a matter of the greatest  
possible importance, and the applica-  
tion of the system to human beings  
will be watched by all surgeons with  
the keenest interest."

"As a last resort in saving life, where  
heart failure has followed the use of  
an anesthetic, Dr. Kemp's application  
of and improvement upon all known  
physiological principles are of the ut-  
most importance," said Dr. Robert T.  
Morris. "But such an experiment  
would have to be made once in ten

## FOR DOLLAR WHEAT

MOVEMENT STARTED TO HAVE  
FARMERS INCREASE PRICE OF  
THE CEREAL.

THEIR SHARE OF PROSPERITY

TRUST METHODS UTILIZED IN OR-  
DER TO BRING ABOUT DE-  
SIRE RESULTS.

Indianapolis, May 25.—The Ameri-  
can Society of Equity will today issue  
a bulletin to the farmers of the United  
States demanding an increase in the  
price of wheat, giving arguments that  
the minimum price of wheat should be  
\$1 and urging the farmers of the United  
States not to sell for less than \$1.  
The society has been organized with  
this city as national headquarters for  
the purpose of maintaining higher  
prices for farm products by co-opera-  
tion of the farmers of the country and  
this is the first formal demand for in-  
crease in prices as the result of the  
combination. The bulletin sets out  
the claim that this is an era of un-  
equalled prosperity, demand for com-  
modities is unprecedented, labor re-  
ceiving higher wages than ever before  
and the demand for and consumption  
of wheat is greater than ever before  
with a low visible supply. The bul-  
letin then says:

"It is evident that the American  
farmers cannot produce over about  
twelve bushels per acre on an aver-  
age, which at 88 cents per bushel rep-  
resents \$10.56 per acre to cover all  
the work, seed, twine, threshing,  
marketing, etc., an amount that scarce-  
ly equals the simplest machine that  
the farmer buys, yet which only rep-  
resents a small fraction of the factory  
investment, capital and labor em-  
ployed.

"Who dare say in the face of these  
evidences, and considering the present  
higher range of values for nearly every  
other commodity produced in the  
country, that wheat at this time and  
for the next crop is not equitably  
worth \$1 per bushel on the basis of  
the Chicago market, and that other  
farm crops should not be on a corre-  
sponding basis?"

"Farmers, keep this matter in mind,  
keep \$1 wheat (\$1 at Chicago) before  
you and you will get it as sure as the  
sun rises in the East and sets in the  
West. Above all, however, we implore  
you, don't be fools. When you get  
the equitable price, let it go. Sell on  
the basis of \$1 and no less, but don't  
hold for more or you may run up an  
unwieldy surplus which must eventu-  
ally compel lower prices."

## FARMERS ARE AGITATED.

Threaten to Lynch Suspected Negro  
Murderer.

Lawrenceburg, Ind., May 25.—Sun-  
day was a day of intense excitement  
in this county over the murder of  
Rosa Kaiser and the murderous assault  
of her father last Friday. The farm-  
ers gathered here, at Guilford, at Man-  
chester and other towns in this county  
and openly threatened lynching if the  
guilty person could be identified.  
Sheriff Axby has a strong guard of  
deputies at the jail where Louis Ever-  
son, known as "Black Ponty," is held  
on suspicion. There is no doubt but  
that this negro would have been  
lynched but for the announcement that  
Albert Harding, who came here from  
Manchester, did not identify him as  
the negro who had called at the home  
of Mrs. Mary Griffin shortly before  
the assault on the Kaisers, and none  
of the other neighbors could identify  
the prisoner.

While the crowds were coming into  
town a dispatch was received that  
another outrage had occurred in the  
county, and this diverted them from  
the jail. Sheriff Axby and deputies  
were called in the morning to Weis-  
burg, where an unknown man suppos-  
ed to belong to some railroad con-  
struction crew was said to have as-  
saulted the two little daughters of  
George Smith, a farmer. The sheriff  
was joined in this chase by many  
farmers and also by Rev. M. F. Cowdry  
and his bloodhounds.

The negro has not yet been found  
and farmers are still scouring the coun-  
try for him.

## TERRIFIC THUNDER STORM.

Two Persons Killed by Lightning at  
Pittsburg.

Pittsburg, Pa., May 25.—A terrific  
thunderstorm, accompanied by a high  
wind, struck this section, and besides  
killing two persons, did considerable  
property damage.

Milton W. Robinson of West Pitts-  
burg drove to Schenley Park with a  
party of friends for an afternoon en-  
joyment. When the storm came up  
Robinson sought shelter from the  
drenching rain under a big ash tree  
in Panther hollow. He had been  
there but a moment when lightning  
struck the tree, literally tearing it to  
pieces and killing Robinson instantly.  
Robinson's four or five friends, who  
were within twenty-five feet of him at  
the time, escaped without even a  
shock from the bolt.

John Wilson, aged fifteen, was  
killed in a stable that was partially  
destroyed by probably the same cur-  
rent that struck Robinson.

Lightning struck a street car at  
Braddock and caused a panic among  
the passengers, some of whom were  
injured by jumping from the car.
